

YOUR HEALTH YOUR CHOICE

Dear Senator,

I am writing to acknowledge the Senate's support of traditional use claims in the Therapeutic Goods (Permissible Indications) Determination No.1 of 2018.

Two in three Australians use complementary medicine and natural therapies and as such I urge you to continue to uphold the Determination passed by the Parliament in February 2018.

The Bill has the support of Government, the Therapeutic Goods Administration, industry and consumers and is in line with the World Health Organisation's position on complementary medicine.

Australia has endorsed The World Health Organisation position which acknowledges that traditional medicines do have a valid function in the modern medicinal framework.

Australia is a multicultural society and people have a Constitutional right to access healthcare and products of their choice, in accordance with cultural and historical use including naturopathy, herbal medicine and traditional Chinese Medicine.

Please uphold the Determination and do not support a motion by minority interest groups to disallow the Determination.

Warm regards,

Your Health Your Choice Supporter.
